“ *When You Remember Jerry .....*  
*It means that you have carried something of who he is with you. That he has left some mark of who he is on who you are. It means that you can summon him back to your mind even though perhaps countless years may have passed. It means that if you meet again you will know him, even after death, you can still see his face and hear his voice and speak to him in your heart.....*  
*Rest in peace Big Jer, you will be missed, love you much from your baby sister, Little Jer...*
