“Kaye was one relative who inspired me as a young teen. My mother Glenna Wight (nee Parnell) is Kay's cousin. Kaye first visited us in Victoria BC in the 1960s. We had a few other visits at the farm and I admired her open mindedness, patience, cheer and interest in others. She inspired me to go on to university and follow my interests. We need more people in the world like Kaye who love life and care about others while they achieve what they can. So here's to you Kaye! You were a lot like my mom and you helped shape me when I needed a role model. You made me a better person. Thanks.”
